

ARIZONA'S WORKFORCE

A press release from the Arizona Dept. Of Economic Security, Research Administration

December 18, 2003

Arizona's Unemployment Rate Drops to 4.8 Percent with the Addition of 21,000 Nonfarm Jobs

Arizona's seasonally adjusted unemployment rate slipped to 4.8 percent in November, down from 5.0 percent in October. Once again, according to the survey of households, the civilian labor force shrank in Arizona.

Arizona's businesses added 21,000 jobs in November. While slightly below the 10-year average, this monthly gain pushed Arizona's workforce levels to yet another record—2,338,000 nonfarm jobs. Since November 2002, Arizona's economy has added more than 39,000 private sector jobs.

Both goods and services industry clusters showed monthly increases, with service-producing industries adding 19,200 jobs and the goods-producing industries adding 1,800. Notably, November gains in the goods-producing industries resulted in the first annual increase since May 2001. The most recent month's level of 366,800 jobs was 3,000 higher than November 2002.

After paring jobs during the previous three consecutive months, manufacturing added 300 in November. The fab-

Arizona, U.S. Economic Indicators

Overall	2,338.0	2,317.0	2,303.6
Over-Month Pct. Chg.	0.9%	1.0%	0.7%
Year to Year Pct. Chg.	1.5%	1.3%	1.2%

rication industry continued its slow recovery phase and showed workforce levels 2.7 percent below year-ago levels. Monthly gains occurred in durable goods (+100 jobs) and nondurable goods (+200).

Construction (+1,500 jobs) pushed to yet another record level—183,900 jobs—in November and accounted for more than 7 percent of the November increase. Most of this monthly gain came from specialty trade contracting (+1,100 jobs). Building construction added 400 jobs, whereas civil and heavy engineering construction was flat. Overall, construction jobs have grown by 4.6 percent since November

(continued on page 2)

2002.

As expected, trade dominated November figures. Accounting for more than 60 percent of the November increase of jobs, businesses increased their staffing levels in preparation for the holiday shoppers. The retail trade workforce swelled by 12,500 jobs, representing a historic monthly increase for this group. Clothing and general merchandise stores increased by 6,300 jobs, representing 30% of all jobs added in November. Other retail sectors experienced widespread gains.

Even though wholesale trade added 700 jobs in November, the sector was unchanged in comparison to last year's level. This particular sector has not shown an over-the-year gain since August 2001.

Transportation, utilities and warehousing added 200 jobs, surpassing October's level and reaching a new peak of 78,600 jobs. While air transportation has yet to show a recovery, the truck transportation sector shows a trend of diminishing annual losses.

Leisure and hospitality grew by 3,800 jobs, representing more than two times the 10-year average increase for November. With widespread gains among sectors, this group accounted for more than 18 percent of the November increase.

Education and health services (+1,800 jobs) also showed widespread gains in

November. Private education added 400, while healthcare and social services added 1,400. Since November 2002, this industry group has added 14,000 jobs, or roughly 36 percent of the increase in private sector jobs over that time.

One of the surprises in November was the loss of 900 jobs in professional and business services. While professional and technical services (+1,400 jobs) showed well-above average monthly growth, the administrative and waste services (-2,500 jobs) shed jobs. Reductions in employment services (-1,200 jobs) and business support services (-300 jobs) were the crux of the surprise. While employment services showed November losses, it has not yet been determined whether many of these jobs may become direct hires elsewhere in the economy, rather than being hired to work for firms through temporary and other placement firms. Meanwhile, the services to buildings and dwellings sector bucked its November trend by adding 300 jobs.

After nine consecutive months of below average growth, financial activities rebounded with an above-average gain of 1,100 jobs in November. Increases occurred in each sector, with the exception of securities, investments and related (-100 jobs), which has lost nearly one-fourth of its peak, early 2001 workforce. Meanwhile, supporting much of the housing growth, real estate rental and leasing (+300) reached another record level (45,400 jobs). Increases in

(continued on page 3)

insurance (+200 jobs) propelled the sector to a new summit of 35,900 jobs.

Other services, meanwhile, showed a gain of 200 jobs.

Government lost 200 jobs as a result of changes at the federal and state level. The federal government reported a loss (-700 jobs) for the second consecutive month. At the state level, the loss of 1,300 jobs was, primarily, the result of the closure of the state fair. Local government had a gain of 1,800 jobs.

In conclusion, November figures showed that Arizona's economy continued to add jobs, and further revealed it was gaining momentum and reaching all-time highs as it entered the fourth quarter, holiday season. Arizona's nonfarm workforce has grown by 1.5 percent since November 2002, up from October's figures of 1.3 percent. Seven of the 11 major industry groups added jobs in November, while two groups pared jobs, and two others

showed no change. Moreover, in preparation for the holidays, retail trade swelled by 12,500 jobs in November--a historic monthly increase. Yes, it is beginning to look a lot like Christmas.

Equal Opportunity Employer/Program

Under the Americans with Disabilities Act (ADA), the department must make a reasonable accommodation to allow a person with a disability to take part in a program, service, or activity. For example, this means that if necessary, the department must provide sign language interpreters for people who are deaf, a wheelchair-accessible location, or enlarged print materials. It also means that the department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. This document is available in alternative formats by contacting the Arizona Department of Economic Security, Research Administration, at (602) 542-3871.
